Brand guidelines

Owner-approved identity. Edition 1.

misterlove.

Independent research and writing.

A clear identity for a curious body of work.
Bold Manrope and generous space make it easy to recognize.

LOVEPREET SINGH

Approved 20 October 2026

The wordmark and symbol.

Use the full wordmark for recognition. Use the compact symbol where space is limited.

misterlove.

PRIMARY / INK ON LIGHT

m.

REVERSE / WHITE ON INK

misterlove.

m.

The period is part of the mark. Keep the lowercase lettering, spacing and proportions intact.

Moss is a restrained secondary option. Use the provided outlined SVGs for exact results.

Give the identity room.

Let x equal the visible height of the lowercase m. Keep at least 0.5x clear on every side.

Clear space is measured from the visible artwork, not the SVG canvas. The small export safety margin does not replace this space.

PRACTICAL STARTING MINIMA

misterlove.

112 CSS px / 28 mm

m.

24 CSS px / 6 mm

Check the final display or print. Enlarge when contrast, reproduction or viewing distance reduces clarity. Favicon files are separately prepared small-size assets.

A quiet, legible palette.

White and ink lead. Gallery and line organize. Slate supports. Moss marks a useful interaction.

Links, focus and selected states

Readable pairs Ink / white 18.0:1 · Slate / white 6.5:1 · Moss / white 6.5:1

Digital color master: sRGB. Convert through the printer's profile and proof the result; no fixed CMYK or Pantone match is specified.

Manrope for reading.

Use a small, consistent type system. Bold headings give structure; regular body text gives the reader space.

Questions worth staying with.

MANROPE EXTRABOLD / 800

BODY EXAMPLE / 400

A good question opens a subject. A clear explanation helps the reader follow it. Choose familiar words, show the evidence, and make the next step easy to find.

Display	800	Tight, deliberate line breaks
Headings	800	Short, direct and clearly ranked
Body	400	Comfortable width and generous leading
Labels	600-800	Small and occasional, not whole paragraphs

Logo settings are specific.
Wordmark: 800, tracking -0.075em, line height 0.95.
Symbol: 800, tracking -0.08em, line height 0.9.

Use the supplied artwork for the logo. Do not apply its tight tracking to reading text.

Manrope is supplied under SIL Open Font License 1.1. Keep its license with redistributed font files. For Hindi, retain the site's Devanagari-capable font stack and verify shaping.

Identity supports the reading.

Build around useful hierarchy, open space and visible controls. Let the content carry attention.

Writing Books About Press

HEADER COMPOSITION EXAMPLE

AVATAR / COMPACT IDENTITY

Start with a question.

The full wordmark identifies the site. The symbol fits avatars, colophons and compact touchpoints. Use one clear identity anchor per view.

EXPLORE THE WRITING

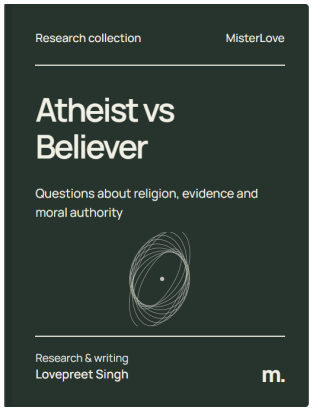

01 **Keep controls visible.**
Use readable contrast and a clear keyboard focus state.

02 **Respect the reader.**
Keep motion restrained and honor reduced-motion settings.

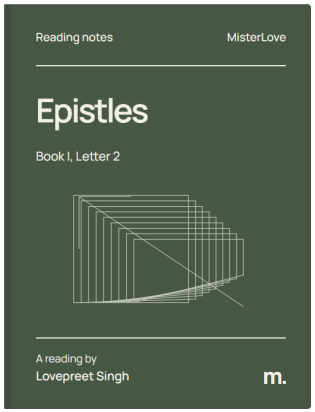

Use SVG for crisp logos. Use transparent PNG when SVG is unsupported. Keep the period visible inside crops and avatar masks.

Many subjects. A shared imprint.

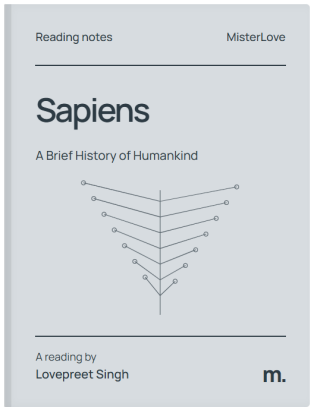

The reading interface uses 22 collection identities across 330 publication covers in this edition.

ORBITS

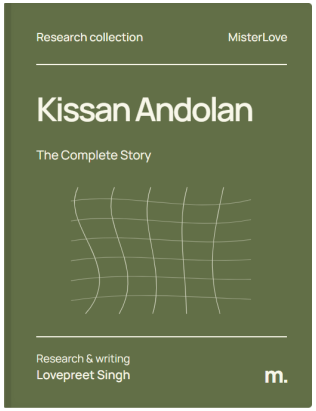

FRAMES

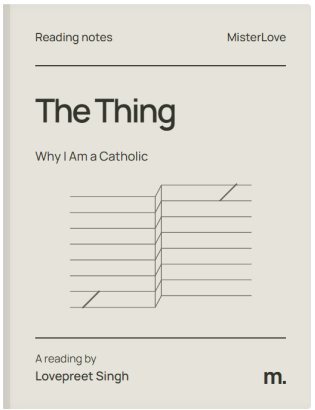

BRANCHES

COLUMNS

RIVERS

FOLDS

Keep the family intact.

Preserve the title hierarchy, collection color, abstract motif, author credit and m. colophon. Retain a consistent layout across language and part changes.

Each collection may have its own palette. These colors extend the core identity; they do not replace the white-and-ink reading environment.

These are reading-interface illustrations, not physical book-cover reproductions. Use "A reading by" for reading notes so authorship remains clear.

Use the identity consistently.

Use the supplied files. Keep changes deliberate, small and useful.

DO

Use the master artwork

Place the outlined SVG at its natural proportions.

Choose a clear background

Use ink on light surfaces or white on a dark field.

Protect the identity

Retain the period, clear space and minimum size.

AVOID

Do not rebuild the lettering

No replacement font, added tracking or changed case.

Do not distort or decorate

No stretching, rotation, outlines, gradients or shadows.

Do not dilute recognition

No busy background, low contrast or cropped period.

ASSET HANDOFF

svg/ exact vector wordmarks and symbols
png/ transparent raster sizes
avatars/ square profile compositions
